

Letter to the Editor:

“This is to inform the citizens of Anderson that I have submitted my resignation to the Anderson Fire Protection District from the position of Fire Chief. Over the past several weeks a great deal of criticism has been wrongly directed at the Fire Board as well as toward me. In both cases, those persons complaining were not informed of all of the facts. I sincerely regret that accusations have been directed at the Board as they have only been doing their duty as appointed to them by the citizens of the District in evaluating recent concerns. It has been my privilege to serve here and I wish the citizens of Anderson well.”

Permission is granted to the District to submit this statement to the press. It will be the only “press” release made by me in connection with the pending personnel matters.
